

Slides & Coverglass

Create clear microscope slides and e-slides. The diverse Surgipath range lets you choose a high-quality slide for any application, and Premier and Micro Coverglass are available for automated and manual coverslipping.

Always use the right slide – select from multiple adhesive/positively charged, painted ends, and corner options.

Deliver exceptional reliability and quality – Surgipath Snowcoat, Xtra, and Apex Clipped Corner slides are validated for use with the Leica IP S slide printer
